

Bridge Buff

September/October 2008

Bernie and Dick Czarnecki, Editors - Phone: 731-1707
Email: sanbornjoker@aol.com

A Publication of Unit 116, Buffalo, New York

President's Message

As the fall season approaches, it is a good time to make your plans for our Sectional at the end of October (October31-November2) and our annual meeting (December 7).

Also, I urge everyone to vote in November, not only for National, State and local elections, but for the excellent slate of candidates running for our Unit Board. That is all for now.

Jay Levy

Your President

Unit Sectionals

Date	Place
Oct. 31-Nov 2, 2008	Lamm Post
Jan. 9-11 2009	Daemen College
April 3-5, 2009	Rescue Fire Hall

Unit Games

Date	Place
Dec 7, 2008	Annual Mtg - Rescue Fire Hall
Dec. 8-14, 2008	District V Winter STaC @ clubs

The *Presidential Master Point Race* is a collection of Unit members who win @ unit games and unit sectionals. These people will be recognized at the Annual Meeting. Below is the highest Masterpoints earned to date in the five categories.

Presidential Masterpoints Race

0 to 100 MP's

Place	MP's	Name
1	9.81	Shakeel Ahmad
2	9.19	Andrei Reinhorn
3	8.51	David Whitt

100 to 300 MP's

Interview Corner

The editor interviewed **Carl Stone**, a friendly person who is always willing to help:

Bridge:

- He was introduced to contract bridge by a family friend from New Jersey when on summer vacation in 1957.
- He still has "Goren's New Contract Bridge Complete" from that year.
- He didn't have much of a chance to play again until his sophomore year in college. He never had any formal lessons.
- His introduction to duplicate bridge was at a Sectional event north of Boston in 1961. That was scary, with opponents yelling at

each other and frequent director calls. Because of the intimidation, He didn't return to duplicate until 1965, playing then at a local club in Westboro, MA.

- He was married in 1967 and though playing social bridge occasionally, gave up duplicate bridge for the next 35 years. Diane and he moved to the greater Buffalo area in 2000. After several years, he was running out of things to do in retirement. His wife suggested that he try a local duplicate game sponsored by the Wheatfield Seniors. His addiction returned in a hurry playing in Wheatfield, then at the Niagara Falls Senior Center and LaSalle Yacht Club.
- He enjoyed playing with **Ed Rutkowski**, a wonderful and patient partner. He played frequently against **Nancy Kessler**. Impressed with her style and feeling that they had met somewhere before (a likely story!), they tried playing as partners and seemed to click. When Ed passed away in 2005, Nancy became his primary partner and they have enjoyed playing ever since.
- Among other people, he enjoys playing with **Eleanor Whelan**, **Paula Kotowski**, and **Alfred Haber**. All of the folks with whom he has played have the same traits... intelligence, kindness, and humor. He found the same to be true of the many people with whom he has yet to play.
- He notes that his less memorable moments are directly related to sub-sub-50% games.
- He served for one year on the Unit Board of Directors, and on the election committee for the elections in 2007 and 2008.

Personally:

- He grew up outside of Boston and went to college there. He has been married to his wife Diane for 41 years. Diane plays social bridge only.
- They began their marriage in the Hudson Valley where he worked for IBM as a technical writer and systems programmer for 30 years
- He was active in athletics (volleyball, basketball, softball), the volunteer fire department (corporate officer and line officer), and local politics (to a minor extent).

- They have two children and 3-1/2 grandchildren. Their children graduated from college in Buffalo and stayed here to work.
- After retirement, he and his wife Diane moved here to be close to them and their families.
- He enjoys cabinetmaking, gardening, electrical work and house design.
- His current passion remains duplicate bridge, playing with terrific partners.

The editor interviewed **Dorothy May**, a lady who greets you with a smile at the bridge table.

Bridge:

- Doty was first introduced to bridge by a girlfriend many years ago when her kids were small. They continued to play together until her first grandson was born. She told her girlfriend she'd be interested in playing bridge, but didn't know the first thing about it and her friend taught her the basics and she stayed at that level the whole time, enjoying a social bridge game with friends.
- When she was eligible to join the Cheektowaga Senior Center she found out that they had a bridge game. One fellow was a mentor and taught the game to beginners. That's where she met **Ken Meier** and their partnership began. He also became a good mentor and a good partner. They discussed different plays, conventions and practiced them together to improve their game
- Later on they heard that bridge lessons were available in Orchard Park by **Lou Soron** at the Senior Center. They attended the lessons together and started playing in her non-sanctioned duplicate game. Scared at first, but learned to enjoy the game and its challenges.
- Her first sanctioned game was at the Bridge Center on George Urban Boulevard where she got her first master points and joined ACBL in 2002. It was at this Bridge Center that she met **Betty Dorio** and got many helpful hints.
- She also received a couple of lessons offered at Bill Finkelstein's club. **Betty Fudeman** showed an interest in her playing bridge and gave her many helpful tips.

- Besides Ken, she enjoys playing with many different people including **Helen Panza, Betty Dorio, Walt Olszewski** and **Nan Denn** and others. She enjoys playing with someone new.
- Dotty has played at different Regionals, mostly with the same team members. Enjoyed watching each become Life Master and celebrating their accomplishment. This was a goal she didn't think would be possible.
- Dotty would like to see Unit 116 build more community among the various clubs. There are so many wonderful people and it would be great to see less bickering and more togetherness and support for our Unit games.

Personally:

- She is married to Ted, a wonderful man. He doesn't complain about the time she spends at the bridge table. Ted is a retired engineer and presently is the Director of Deacons for the Diocese of Buffalo. They will be married for 50 yrs. in April and have 3 children and 9 grandchildren ranging in age - 21 to 6.
- She worked as a school secretary for 17 years and then worked another 17 years at the Buffalo Tribunal as a part time secretary.
- She enjoys sewing, embroidery, crocheting, gardening and cooking. Dotty sewed clothes for her children when they were younger and now for the grandchildren. She made their communion and flower girls dresses for them.
- Dotty has been active in her parish community for over 45 years and is now part of the hospital visitation team, a Eucharistic Minister. She belongs to the Women's Guild and was named "**Woman of the Year in 1992.**"
- Dotty also enjoys bowling every week. Her high series was a 587 and her highest average was around 165.
- One of her biggest enjoyments is traveling, especially cruising and has been fortunate to see many different countries around the world.
- Most of all, Dotty feels that she is blessed to have such a wonderful family, good friends and the gift of faith. She is happy that playing bridge has enriched her life and in the process has

many new friends who are always there to help.

Contest

The contest that was printed in the last Bridge Buff had no response – therefore, there are no winners.

The Nomination Committee nominates the following members for Unit Board 116. Election will take place at the General Meeting to be held on Sunday, Dec. 7th:

Judie Bailey, Betty Bronstein, Linda Burroughsford, Doanne Jackson, Bob Lederhouse and Betty Metz

The bios on the following are as follows:

JUDIE BAILEY

In 2006, after almost 22 years in Syracuse, I retired from the NYS Attorney Generals' office and "re"planted myself to Buffalo to be near one of my daughters and two granddaughters (I have another daughter and 2 grandchildren in Bradenton, Florida and frequently visit there). I quickly became acquainted with the local bridge clubs and play at several as my life schedule allows. When I was asked to serve on the unit board as an appointee in the spring of 2007, I accepted, deciding to do something besides just play the game. Last winter I again agreed to an appointment although I hadn't chosen to run for an elected position. As a member of the Board, I have co-chaired the week-long Sectional last fall and organized the annual 2007 meeting which was snowed-out, I worked on preparing the new directory and spread "sunshine" as needed. If

elected I will continue to consider the varied interests and concerns of our diversified members and do what is necessary to keep Unit 116 active and vital to our bridge community. Thank you for your support.

BETTY BRONSTEIN

"Volunteering for the unit board is a commitment by me to use my abilities to help the entire bridge community have a good time at the games. I was successful my last term and would like an opportunity to do it again."

LINDA BURROUGHSFORD

"I've been asked to serve on the Unit Board primarily to represent the interests of the active and enthusiastic 0-299 group. Many good bridge players in the Unit have been very generous with me and others in the 299 group as they've tried to help us become better players. I look forward to the opportunity to give something back through my service on the Board."

DOANNE JACKSON

Bio not provided.

BOB LEDERHOUSE

"I am a retired college professor who operates a small farm in Niagara County. My Duplicate Bridge experience started about three years ago. I regularly play in Lockport and support Unit, Sectional and Regional events. As a Board member, my focus would be on the issues and interests of 299'ers. I also believe that more effort should be made to recruit new members to the Unit through mentoring youth and conversion of party bridge players to duplicate bridge.

BETTY METZ

"I started playing Bridge about three years ago and was instantly "hooked". Since this beginning I have taken many sets of lessons and usually play 3 to 6 times a week. I believe I am making some progress with this endeavor. I am very grateful to all who give time and encouragement to the new members. For this reason I have decided to run for the board. Perhaps I can give back in some way. From the late 70's to the year 2000, I owned and ran a local tour company. We did tour and travel arrangements for large conventions coming to Buffalo, we worked with 25 local school districts and their continuing education departments and we had a large base of loyal travelers that we planned for and escorted throughout the world. What does all this say about me? I am a hard worker. I am extremely well organized. I care deeply about people, their wishes and needs. I think "out of the box" to problem solve. I am a fairly

new face in the bridge world and will bring a new outlook to the board."

Thank you – Dick Czarnecki, Chairperson, Claire Gareleck, and Carl Stone

BRIDGE CRUISE

An Unbeatable Combination:

Warm Caribbean Sun, Luxurious Crown Princess, Exotic Islands and Contract Bridge with Old and New Friends.

Feb. 22 – Mar. 1, 2009 - Itinerary:

Ft. Lauderdale, Princess Cay (a private island), at sea, St. Maarten, St. Thomas, Grand Turk, at sea, Ft. Lauderdale

Bridge Games (included) – Join **CHRIS URBANEK** – ACBL Certified Bridge Director and **BETTY METZ** – RETIRED Owner/Group Tour Operator Two ACBL sanctioned games each day at sea. Other games will be scheduled around ship's activities and time in port. Family and friends who do not play bridge are welcome to join us on the cruise.

Questions on the Cruise:

Contact **Betty Metz** – 716-773-7398 or bettymetz@roadrunner.com

Questions of Bridge:

The power of fits and distribution! Each side has about 20 HCP yet each can make 10 tricks in a black suit or 9 in a red suit! Left alone NS can get to 4♠. N 1♥ – S 1♠ – N 4♠. But the auctions will surely be competitive. One possibility:

<u>N</u>	<u>E</u>	<u>S</u>	<u>W</u>
1♥	P	1♠	2N (Unusual)
4♠	5♣	P	P
X	all pass		

5♣X is only –100 vs. –420. A good sacrifice

Another family of auctions could start: N 1♥ - E 2♣ If S passes (I wouldn't) EW might play for a ♣ part score and all of the match points.

The Bridge "Gene-ie"
By Eugene Harvey

Hi Eugene! Here's a hand for you:

North
Q 5 4 3
Q
A 5 2
K J 7 4 3

Dealer South
A K J 9 2
9 7 2
K 6
A Q 5

We dealt it at random, and explored opening bids of 1♠ and 1NT. It appears to be cold for six spades, but how can you get there? We can get to 4♠ or 3NT. The latter is disastrous! Best regards!

Thanks for the question! Holding a GOOD 5-card major AND a maximum hand (17 HCP), the best way to open this hand is 1♠. You should *upgrade* the value of this hand to 18 pts. due to the 5th card in the good ♠ suit. People opening 1NT probably will get to 4♠ via a Stayman auction, but they will miss the slam.

Assuming you open 1♠, I have the perfect solution for this hand...and those people in my former class on Major-suit Raises might recognize the perfect bid too, right?? ☺ *wink*

With 4+ card trump support, values of an opening hand, and an outside void or a singleton that is not an Ace or King, you can make a *Splinter bid*, which is a *double jump-shift to the short suit*. Never heard of it? Take some time to research it – Splinters are not too difficult to understand, and they can be VERY useful indeed!!

1♠ - 4♥ (!) = Splinter (Alertable) 4+ card spade support, singleton or void in hearts, about 12 to 15 support points total, no wasted values (A or K) in the splintered suit

After the splinter, the opener knows that he will be able to trump most of his losing hearts in the dummy since dummy will have a singleton or void in hearts. Also, the points in the responder's hand should tend to be in the outside suits – not in the splintered suit – so the rest of declarer's honor cards are "working," so to speak (honors in ♣s and ♦s will "fit" nicely with responder's values in those suits).

Here's the suggested bidding then:

1♠ - 4♥* (Splinter, which is alertable)
4NT (Blackwood) – 5♦
6♠ - pass

Critical Thinking – Bidding Inference

Since the responder should not Splinter with a singleton ♥A, the Blackwood response of 5♦ (showing 1 ace) must be the ♦A (you have the 2 black aces). This is a great piece of information! It covers your ♦ loser. Things are looking much better between the hands! ☺

Declarer Play

12 tricks should be relatively easy to take... The easiest way: pull trump, then start *unblocking* your ♣ suit by playing the ♣A, then the ♣Q, then the ♣5 over to dummy's winners. Then you can *discard* 2 of your 3 ♥ losers on the remaining ♣ winners. Voila! A small slam made! ☺

Thanks again for the set of hands! Keep forwarding those questions...

(*in a booming voice* 'Genie HAPPY! Send more!' Eugene @ bridgegenie@gmail.com)

Haunted Surroundings
By Bob Noe

Amherst - Daemen College - Curtis Hall - It is said that two brothers had gotten into a fight, and had hung themselves at the same time on separate sides of their home in Curtis Hall. People have felt the presence of these two brothers, and say that the brothers have tried to play tricks on the people who visit and work in Curtis Hall. They will move chairs around, and tie knots in your shoelaces.

Batavia - Tonawanda Creekside North - On the north side of the Tonawanda, in the City of Batavia, lays the old Pioneer Cemetery. It was moved more than seventy years ago to the center of Batavia because of a flooding problem. When the creek flooded, it would sometimes wash up a body or two. It is believed that not all of the bodies were relocated. There now stands a number of businesses where the original cemetery once was. People claim to this day of seeing a mysterious woman in gray walking along the Creekside.

Buffalo - Buffalo Naval Park - The S.S. The Sullivan's - This ship was named after the five Sullivan brothers who were killed in WWII on the same destroyer. Caretakers have all had experiences aboard the ship including lights turning

on and off. Doors are locked at night with the caretaker having the only key and the doors will be unlocked the next day. The keys have been changed frequently.

Buffalo Psychiatric Center - This foreboding castle-like structure is located on Forest Avenue and dates back two centuries. The facilities have long since been shut down, but the mental incurables still haunt the place. Underground catacombs still contain equipment used in the unorthodox methods believed to make these poor souls right. Back in those days, mental patients were subject to unusual and cruel treatments. The spirits of these unfortunate souls have been seen roaming the dark and melancholy facilities.

Medaille College - This has been said that this school formerly called: School for Boys. It is being haunted by former students who attend & that they appear as normal like kids today, but in searching for teachers, sitting in classrooms in their 1944 clothing attire, behaving themselves while the teachers are teaching.

School #61 - In 1975, it is said that a young boy died in the school pool on the second floor. In English room below, ceiling tiles fall every year describing the word "Help."

Kenmore - *Lindbergh elementary* - Custodian was killed in a fire and died. Kids claim they hear ghostly noises and see white shadows.

East Aurora Roycroft Inn - Many people have said they've heard voices in the rooms when no one was in there and have seen ghostly figures in the halls and main lobby. The Roycroft did burn down many years ago and was recently restored.

Roycroft Pavilion - The Roycroft Pavilion is the home of the Aurora Players. Many of the cast members have felt a presence or seen strange things. The ghost is said to be that of a middle aged dark haired woman

Fredonia - Fredonia State College - Igoe Hall - A student named Jimmy Igoe was killed on a fishing trip to Lake Erie. He now haunts the halls of this structure by slamming doors, changing television channels, turning lights on and off, and messing with the water in the bathrooms and he messes with the elevator. When you ask him to stop, he will.

Grand Island - *Holiday Inn* - in the holiday inn there is a room that is all locked up. This is be-

cause whenever someone rented that room, they got a call in the middle of the night at the same time and when they picked up all they heard was a little girl laughing.

Whitehaven Cemetery - A young girl who haunts the Holiday Inn next door her grave stone glows. There is also a young woman who died of AIDS in the early 1990's there and she can be seen on her grave marker holding her infant son. There is also a man who died in the Gulf War walking around. He is supposedly looking for his pregnant wife

Lockport - *Cold Springs Cemetery* - A young hitchhiker still comes to the place she was picked up and murdered.

Kennan Center - Strange white lights, and apparitions seen.

Kennan House - A little boy ghost has been seen running and playing throughout the house.

Old House - There is an old house across from a bar in Lockport. It was a house that was involved in keeping slaves during the Civil War and was part of the Underground Railroad. There was a massacre there, where everyone was killed. A few years ago someone bought it to restore and make into a museum but the men rebuilding it kept getting very scared by ghostly presences on the site and in the house. They left their scaffolding there and never came back. If you go near the house at night you can see black figures guarding it.

Newfane - *Van Horn Mansion* - A man named James Van Horn built this mansion in 1820. His wife died at the age of 21, some say under mysterious circumstances. A roofer almost fell to the ground after he saw a woman looking at him out of a window of the empty house. Carpenters fled when a person materialized out of a cloud in a bedroom. They wouldn't go back even to get their tools. Some motorists have tried to avoid a girl running from the mansion, and then vanished.

Niagara Falls - *Niagara gorge* - Devils hole - Down by devils hole, just underneath the famous haunting of Clet Castle, Niagara University, there are mysterious apparitions, foreign language cants, and sometimes the feeling that someone is watching you or simply just brushed you gently as they passed you by. The light never really does seem to shine fully on this long decent of stairs. and many locals will not go down there at night, not because of crime, because people here are very trusting. It is just a given knowledge you don't

want to go there. A few summers ago a couple of fishermen found bones of a young Indian warrior (perhaps), or from a young Indian boy thrown down to the gorge, possibly for sacrifice.

Niagara University - Clet Hall - Clet Hall has burned down multiple times, resulting in numerous deaths. One ghost is of a student who died in a fire. Many students have claimed to see his ghost inside their dorm rooms and in the adjacent theater.

Orchard Park - M*A*D*S - There is believed that a spirit named Ronald inhabits this very old building. It used to belong to a man named Ronald, and the kids that now go to this dance studio, firmly believe there is some kind of super natural being in the studio. It likes to play tricks, for example; hiding the cds, and misplacing glasses, and other cruel jokes.

Old AirPort - At night you could hear howling and people talking in the office building. Update: The story of the ghosts ended about a few months ago. The airport was destroyed to make way for new apartments.

Tonawanda Elmlawn Cemetery - At night orbs can be seen, when driving by this cemetery. A number of unidentified lights as well can be seen inside the cemetery as well. This normally occurs between midnight and 3am.

Elmlawn Cemetery / Church - years ago, a young woman was just married to the love of her life in that church. As she was crossing the street to go in their "get away carriage", she was run over and killed instantly by an oncoming carriage. It has been said that you can still see her cross the street after dark!

Mighty Taco on Eggert Street - The cooler in the back, and surrounding areas outside the cooler by the dumpster is said to be the home of an unexplained presence. Workers will at times be in the back, back section, in the freezer, when they feel a sudden sense of danger, and a hurried need to get out. Similar unnatural feelings have occurred by the dumpster, right outside the cooler. It is not certain the reasons for this, but nevertheless the feelings remain, unexplained.

Youngstown - Old Fort Niagara - The French Castle at the fort is where most of the paranormal experiences have occurred.
